YMCA School Aged Child Care

The YMCA of York and York County, in collaboration with local school districts, provides before and after school care in elementary school buildings throughout York County. Our SACC program is planned around student interest, allowing for daily outside play (weather permitting) and homework time.

Quality Care

We strive to build and sustain ongoing positive relationships among our children and families as it is essential for the growth and development of children. Our programs are licensed by the Pennsylvania Department of Human Services and are recognized by Keystone STARS.
